The one hour of instruction combines the building of fundamental skills with organized team competition and a goal of providing an enjoyable and educational after school athletic event. Boys and girls of all skill levels are encouraged to join. We will study passing, dribbling, shooting, rebounding, and defending, while at the same time, learn how to work as a team. Students will become better basketball players and learn the habits necessary to succeed both on and off the court. **FEE FOR GRADES 1-2 INCLUDES SUPERVISION FOR PARTICIPANTS AT CLUBHOUSE FROM 2:30pm UNTIL THE START OF CLASS AT 3:05pm. #### **Kidz Clay! (Ceramics)**

Experience the magic of clay! In this hands-on class, we explore the handbuilding techniques of coil, pinch and slab in exciting projects that nurture children's creativity. Every week, students will create pieces such as animals, masks, houses, and more! These projects make great bases for children's personal visions, and allow them to play with art concepts including symmetry, texture, and patterns.

Children will build their own clay stamps and learn how to find unique tools in everyday life, while developing strength and precision in their most valuable clay tool... their hands! You'll be delighted at the creations your child will proudly bring back home!

**Instructor: Claire Weber** brings experience and passion in working with kids, with over 10 years experience in clay, both hand-building and pottery wheel, and 8 years making art and clay projects with elementary grade children. Clay is an amazing medium that feeds our sense of touch, tugs at our inner playfulness and boosts our creativity!
