COURSE DESCRIPTIONS:

After School Hoops

This is a fun afternoon basketball class for aspiring young players. The one hour of instruction combines the building of fundamental skills with organized team competition and a goal of providing an enjoyable and educational after school athletic event. Boys and girls of all skill levels are encouraged to join. We will study passing, dribbling, shooting, rebounding, and defending, while, at the same time, learn how to work as a team. Students will become better basketball players and learn the habits necessary to succeed both on and off the court.

Instructor: One on One Basketball, INC.

Chess Wizards

Let's Play! Let your child be a part of one of the most successful chess academies in the country. Chess Wizards teaches the game of kings in a unique, fun, and engaging way. Kids will learn everything from basic piece movement to advanced tactics, with lessons tailored to suit students of all skill levels. Participants will receive a trophy and a folder containing all of the puzzles they complete throughout the course.

Instructor: Chess Wizards

Young Rembrandts

Young Rembrandts' lessons are fun, engaging and educational. Students complete one new drawing each week and learn a variety of art concepts including: portraiture, still life, line and patterning, realism/abstract, perspective, color theory, and art vocabulary. We never repeat lessons so there's something new each week. With Young Rembrandts your student will "Discover the Power of Drawing!"

Instructor: Young Rembrandts

Hip Hop/Zumba

This is a fun combo class which will have students learn the basics of Hip Hop, Zumba and Latin music. Students are given the opportunity to get into fabulous, kidtastic shape through repetition, great music and cool lyrics. This is the best class for students to get their exercise and dance techniques while having fun.

Instructor: After School Life

Earth, Wind, Inspire

Neither rain, nor sleet, nor snow will prevent us from having a great time in this session of Mad Science. We'll learn all about weather as we explore meteorology and clouds. Take a voyage to the center of the earth as we investigate how our planet formed and the forces that keep changing things. Discover how science is used to solve crimes, and take home your own I.D. kit. Learn all about pulleys, levers and catapults in Mad Science Machines and make your own Rocket Racer. Discover first-hand how movie special effects are created. Turn your kitchen into a virtual lab as you learn about the chemical reactions that take place there. Explore the science behind your favorite toys, as well as some that you may not have played with, but your parents probably did. You won't want to miss a minute of this exciting series!

Instructor: Mad Science- Mad Science is the world leader in fun science for children. Mad Science conducts educational, entertaining, and hands on learning activities for elementary age children throughout the Bay Area. Our unique brand of exciting, interactive activities instills a clearer understanding of how science affects the world around them. Through Mad Science your child will be able to touch, hear, smell, and taste what science is really about.

Kid's Tennis Club

The South Bay Community Tennis Association is now introducing Rallyball...the FUN way to learn and play tennis! **This is NOT your traditional tennis lesson!** Using the **NEW Quick Start Format** - age and skill appropriate racquets, balls, & courts – and a games based approach to learning, players will be able to rally in minutes and learn the fundamentals of the game in a team environment. This program offers instruction in the fundamentals of tennis (basic forehand and backhand skills), as well as skills that can be applicable to any sport, or even the classroom, such as hand-eye-coordination, concentration techniques, and teamwork concepts * **A materials fee is included in the price of this class**

Instructor: **South Bay Community Tennis Association** in affiliation with the **Los Gatos Tennis Academy (2009 Top 50 Tennis Welcome Center in USA).**

Math Mania

Who knew math could be so much fun? MathMania teaches District & Singapore Math curriculum at or above the students' grade level depending on their ability. Math & Logic concepts are taught alongside fun activities such as brainteaser contests, crafts, origami and other activities such as "Dodge Ball Math" or "multiplication table tennis" designed to exercise all muscles including the brain. Last day includes a raffle and awards for students, MathManiacs!

Instructor: Saratoga Academy – a division of Mind In Progress

Tae Kwon Do

Lessons in this class are built to enhance a child's physical and social development. They will positively channel growing energy while developing confidence and self-discipline needed for success in life. Through the basic skills of martial arts, we work on respect, focus, and attention spans while challenging coordination, balance, memorization skills, and leadership. Respect and discipline through the vehicle of martial arts will be developed. Testing at the end of each session encourages students to work and helps them to recognize their progress. **Please note a materials fee of \$15 is due on the first day of class, payable to Master Edmonds. The fee covers the class uniform.**

Instructor: Master Edmunds Academy of Martial Arts

Art of Cartooning

Students will learn step by step how to draw some of their favorite characters and animals by combining very simple shapes and lines into an amazing result. In each lesson, students will learn to express themselves through different techniques and progress through each stage of the drawing until they have a finished piece truly worthy of hanging on your fridge or wall.

Instructor: After School Life – www.AfterSchoolLife.org

Future Enrichment Sessions Include:

Session 5: April 23, 2012 – June 1, 2012
